Here came the D-day that Swinkelsche 2 line up towards the first challenge from 2025 NGF season. Our opponent was Echt-Susteren 1 where we had a great match in Brunssummerheide GC.

To add new energy into the team that we recruited newbies this year. Hopefully something old and something new would bring the best luck along this new journey!!

My first impression from the past about Echt-Susteren teams was they have accurate iron shots. But this year, Echt-Susteren team 1 showed us great driver shot as well!! Life is like riding the roller coaster that surprises come in every corner. Swinkelsche 2 must be very careful on choosing our strategy before every swing, but the first question was on how our newbies handle the pressure in the course? While it is overwhelming by the frozen air from competition atmosphere and hot attacks from the opponents.

Bang!! First tee-shot of the year shot off!! Under such a high pressure under spot lights. We only collected 3 points while Echt-Susteren stressed us by collected 11 points. We added absolutely high pressure on ourselves before enter into green-some match. But hey, Swinkelsche team 2 is built and casted by training and practices, and the teamwork is our spirit. With this confidence, we did see the light in the end of the tunnel that we won 8 points back. All square with Echt-Susteren GC with results of 11:11 points. Never say never!! Together, we overcame the disadvantage from the single-match. Not to lose the first competition of the season did encourage ourselves to take the next one!!
