Pace into the second match, we had a competition with our old friend – Brunssummerheide GC. This team does have the best long iron shot, which their drivers are only a good-to-have for them. This year, they do have a young talent player – Ollie Bellemarkers, who does have a natural golf swing, and of course, super long distance with woods.

Hoenshuis is a beautiful course with almond blooming trees, however, Brunssummerheide 3 brought us an old memory of scene that they are confident and solid. With this heavy stone in mind, our teammates stayed calm and kept own pace in the day.

Bang!! Ollie Bellemarkers showed us what does “young talent” means, however, we also scrambled tee-off steadily. In my view when I stand behind the first tee-box watching the fires made by both teams, wow, this is gonna be a bloody fight!! Thanks to lord and blessed us with 10 points against 4, even recovered from the lost of the first 2 single matches.

With this advantage we entered into the green-some, again, our teamwork was the magic touch that we managed 8 point against 0 point. Total 18 versus 4 points, the first triumph of 2025 was just made!
